SOUTHEAST ASIA

AESTHETIC & ANTI-AGING MEDICINE WORLD CONGRESS

Welcome to AMWC SOUTHEAST ASIA 2025

Uniting Aesthetics, Longevity & Innovation in One Vision

It is our privilege to invite you to **AMWC Southeast Asia 2025**, bringing together dynamic aesthetic and anti-aging experts from across the region and around the world for an engaging and insightful event in Bangkok.

Guided by the **Dermatological Society of Thailand (DST)** and the **Aesthetic Multi-Specialty Society (AMS)**, this year's congress bridges regional expertise with international excellence. Informed by **audience feedback** and rooted in the realities of daily practice - where no single approach can meet the evolving needs of today's patients - the program embraces the **power of synergy**. It unites diverse disciplines, modalities, and perspectives to deliver truly personalized care, offering practical insights, holistic strategies, and the latest scientific advances.

Discover "East Meets West: The Longevity Track powered by A4M" - a curated journey into anti-aging and regenerative medicine, where traditional wisdom meets advanced science in pursuit of optimal healthspan.

Debuting this year, **The Catalyst Room** offers a stage for breakthrough ideas - where innovation comes to life through expert-led dialogue and the industry's forefront showcases its most exciting advancements.

On the vibrant **exhibition** floor, innovation is on full display through curated showcases and featured advancements, offering a chance to explore the newest solutions and connect with the teams behind today's most forward-thinking technologies.

At AMWC Southeast Asia, scientific excellence is more than a slogan - it's a lived commitment within a community built on warmth and meaningful connection. Whether you're joining us for the first time or returning to familiar faces, we hope you feel inspired, supported, and truly welcomed.

Welcome to AMWC Southeast Asia 2025.
Welcome to a congress built by us - but shaped by you.

ORGANIZATIONS

CONGRESS INFORMATION

VENUE

THE ATHENEE HOTEL, A LUXURY COLLECTION HOTEL

61 Witthayu Rd, Lumphini, Pathum Wan, Bangkok 10330,

Thailand

www.marriott.com/en-us/hotels/bkkla-the-athenee-hotel-a-luxury-collection-hotel-bangkok

LOCATION

- 30 minutes from Suvarnabhumi International Airport
- BTS sky-train stations: "Ploenchit" and "Siam" are linked via sky-walk

REGISTRATION

Online registration, with secure credit card payment is available at

www.amwc-southeastasia.com

Access to the conference depends on your choice of pass.

- Full Pass Aesthetic sessions & A4M sessions
- Conference Pass Only aesthetic sessions
- A4M Pass Only A4M sessions on Nov 20th
- Post-congress courses Nov 22nd at Rajavithi hospital
 - Full-face Injectables course 1-day
 - Ultrasound in injectables course 0.5 day
 - Thread Lifting course 0.5 day

The registration fee to these passes includes:

- A badge, a congress bag, a conference book, all the congress documents
- Certificate of attendance with accreditation credits
- Coffee breaks and lunches offered on site

Cancellation policy:

Please consult www.euromedicom.com

GENERAL INFORMATION

VISA

For most countries, no specific Visa is required to visit Thailand. If you require a visa invitation letter for inclusion with your entry VISA application, it can be downloaded from your account you are registered to the event. If you will need more information, please contact us at:

registration@euromedicom.com

ACCOMODATION

Due to its convenience, the recommended hotel is The Athenee Hotel. However, the delegate may choose to stay at any hotel of their choices around the venue.

INTERNATIONAL ACCREDITATION

- The Aesthetic & Anti-Aging Medicine World Congress (AMWC) Southeast Asia 2025, Bangkok, Thailand (20/11/2025 21/11/2025) and its post-congress courses (22/11/2025) have been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.
- LEE/2025/01114 AMWC Southeast Asia 2025 (20-21/11/2025) **11.0 European CME credits** (ECMEC®s)
- LEE/2025/01142 Full-Face Injectables: Interactive Demonstrations and Expert Techniques (22/11/2025) 7.5 European CME credits (ECMEC®s)
- LEE/2025/01845 Facial High-Resolution Ultrasound (HRUS) in Aesthetic Medicine (22/11/2025) 4.0 European CME credits (ECMEC®s)
- LEE/2025/01846 The Thread Workshop: Planning, Placement & Precision (22/11/2025) 4.0 European CME credits (ECMEC®s)

• AMWC Southeast Asia 2025 has been submitted for assessment through the conference vetting system under the MedTech Europe Code of Ethical Business Practice.

Event reference: EMT-25-02385

Status: Compliant

Discover What Sets AMWC Southeast Asia 2025 Apart

Scientific Excellence Driven by Your Voice

AMWC Southeast Asia 2025 combines the world-renowned scientific rigor and quality standards of AMWC with a program uniquely built from your feedback and clinical needs. Every session and insight is carefully selected through a rigorous, unbiased abstracts review process, ensuring a cutting-edge, evidence-based curriculum tailored to advance your practice.

Global vision, Regional insight

Scientific collaboration with the **Dermatological Society of Thailand (DST)** and the **Aesthetic Multi-Specialty Society (AMS)** ensures a culturally attuned, world-class program. This partnership brings unique regional perspectives and patient specificities from Southeast Asia, blending them with international standards to deliver relevant, impactful education.

Embracing Comprehensive Care AM

Focus on multi-disciplinary approaches in both aesthetics and longevity for truly personalized patient outcomes. Discover the "East Meets West: The Longevity Track" powered by A4M, a dedicated journey into anti-aging and regenerative medicine.

The Catalyst Room: Innovation in Action

A dedicated platform where industry presents scientifically grounded research and evidence-based innovations, developed in collaboration with clinicians to advance clinical practice and improve patient outcomes, all upheld to the highest standards of scientific integrity on advancing clinical practice.

Networking, Exploration & Exhibition

In an engaging and welcoming atmosphere, connect meaningfully with peers and pioneers, and discover the latest innovations showcased on the exhibition floor.

ID SESSION: 8213

Injection Playbook: A Strategic Guide to Botulinum Toxin Success

Moderators: Heidi A. WALDORF, Thanya TECHAPICHETVANICH

This session offers practical guidance on recognizing, managing, and recovering from vascular complications caused by dermal fillers. Learn evidence-based protocols and innovative treatment strategies to build confidence and competence in handling emergencies, ensuring patient safety and optimal outcomes.

• Facial equilibrium: The evolving role of OnabotulinumtoxinA from upper to lower face - A balanced protocol for real-world practice

Arash JALALI

• Diffusion characteristics, spread and migration of BoNTA formulations: How do they impact treatment strategies?

Martina KERSCHER

• Precision targeting for superior results: An ultrasound-guided approach to **Botulinum Toxin**

Natthachat JURAIRATTANAPORN

• Masseter muscle and facial aesthetics

Elona GABUEVA

• Novel anatomical guidelines on botulinum neurotoxin injection for nose including ala

Kyu-Ho YI

• Gingival smile: When botulinum toxin is the best choice

Arcelino FARIAS NETO

• The art of toxin: Off-face techniques in practice

Thanya TECHAPICHETVANICH

— 09.45-10.00 - Opening Remarks & Welcome Message — 10:00-10:30 - Coffee Break & Networking —

10:30 - 12:00

LIVE DEMO D ID SESSION: 8217

Profile Sculpt 360°: Full-Face Balance

Moderators: Joan VANDEPUTTE, Penpun WATTANAKRAI

Achieving true facial harmony goes beyond isolated enhancements - it requires a strategic, full-face approach. This session explores how to balance the nose, chin, and forehead using non-surgical techniques to sculpt an ideal profile. Experts will share advanced injection strategies, anatomical insights, and key decision-making principles to ensure results that are both natural and transformative. Learn how to assess facial proportions dynamically, choose the right products for structural support and finesse, and create impactful yet subtle results that respect each patient's individuality.

• Two lines, no math. Deep, anterolateral midface augmentation along two

Joan VANDEPUTTE

• Rhinomodelation with polycarpolactone - A safer and effective solution

Kamran Izhar QURESHI

• Live Demo: Full face case 1

• Live Demo: Full face case 2

From Panic to Protocol: Turning Vascular Complications into Competence

Moderators: Sandy ZHANG-NUNES, Natthachat JURAIRATTANAPORN

This session offers practical guidance on recognizing, managing, and recovering from vascular complications caused by dermal fillers. Learn evidence-based protocols and innovative treatment strategies to build confidence and competence in handling emergencies, ensuring patient safety and optimal outcomes.

 Risk factor analysis for vascular occlusions after dermal filler injections: A systematic review and meta-analysis

Adham CHAKHACHIRO

• Venous & lymphatic impairment by fillers: A novel ultrasound perspective on the neglected child of vascular complications

Hagai BETZER

• Nose vascular occlusion: How I manage

Alain MICHON

• The dreaded filler complication: How I avoid vascular occlusion

Cyril Mitchel AGAN

• Hyperbaric chamber treatment to address vascular injection occlusion and tissue necrosis

Daniel KALBERMATTEN

• Fat graft for post filler skin necrosis and scar treatment

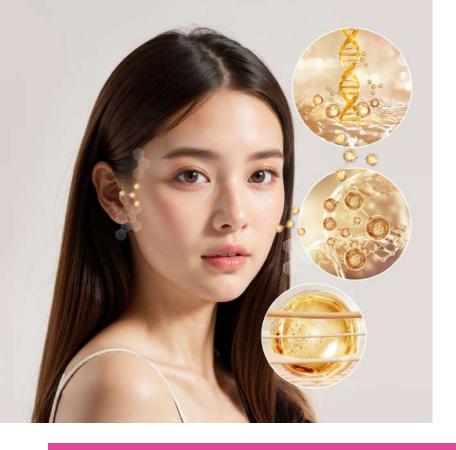

Kritsada KOWITWIBOOL

• A new international protocol on treating filler induced blindness

Sandy ZHANG-NUNES

• Structured complication management in aesthetic medicine: A real-world protocol for safe practice and recovery

Dimitris MOTSIOS

EAST MEETS WEST: THE LONGEVITY TRACK POWERED BY A4M

To obtain ABAARM Board Certification or ABAAHP Diplomate Certification with A4M, candidates must complete two live or online events. The AMWC event, along with the A4M track, will fulfill one of these two event requirements.

East Meets West: The Longevity Track powered by A4M bridges Eastern philosophies with Western medical innovation to explore the science of healthy aging. This one-day program offers practical, clinical insights into peptide therapies, hormonal optimization, and integrative strategies for skin health, weight management, and vitality.

Gordon Crozier, DO

Gordon Crozier, DO is recognized as a leader in both the research and application of integrative medicine and a pioneer in the field of genetics-based medicine. After graduating from Des Moines University & College of Osteopathic Medicine and Surgery in 1994 with a Doctorate of Osteopathy, he completed his internship and residency in Obstetrics and Gynecology at the Michigan State University Garden City Hospital Campus. Dr. Crozier went on from there to practice in the areas of hormone replacement and women's health. A board-certified physician in the state of Florida, Dr. Crozier is the Medical Director of Crozier Clinic in Orlando, where he is also a practicing physician.

Dr. Crozier combines his own life experience with his formal education to help patients from around the world. In addition to seeing patients at his private practice in Orlando, Florida, Dr. Crozier accepts patients remotely and travels around the world giving lectures on the power of natural treatments, genetics-based medicine, and integrative medicine.

Marisol Duque, MD

Marisol Duque, MD is a distinguished medical surgeon with over 18 years of unwavering dedication to providing exceptional care and trust to patients throughout Latin America and Europe. Specializing in Integrative Medicine, Bio-regenerative Medicine, Tissue Regeneration, Longevity, Homotoxicology, Neural Therapy, Anti-Aging, and Aesthetics, as well as Cardiovascular Health and Nutrition, Dr. Duque's expertise spans a wide spectrum of medical disciplines. With a rich history of successfully treating over 10,000 patients afflicted with diverse pathologies, Dr. Duque firmly advocates for the pivotal role of awareness and the cultivation of healthy habits as the foundation of effective medical intervention. She firmly believes that fostering a patient's understanding and practice of good habits serves as the primary form of medicine, empowering individuals to take charge of their health and well-being. Dr. Duque's medical practice seamlessly integrates both traditional and alternative approaches, offering comprehensive treatment programs tailored to address various health concerns including cardiovascular health, digestive health and metabolism, athletic performance optimization, and natural fertility cycle management, among others.

A trailblazer in the realms of natural anti-aging and tissue regeneration techniques, Dr. Duque has spearheaded the development of specialized medical programs aimed at addressing a myriad of skin and connective tissue pathologies through an integrative approach. Notably, she has pioneered a groundbreaking technique that mimics the body's innate capacity for regeneration, marking a new epoch in autologous intelligent biology. Driven by a passion for research, Dr. Duque has actively contributed to esteemed research groups affiliated with prestigious institutions such as George Washington University, Brown University, and Saint Laurents Institute, furthering the frontiers of medical knowledge and innovation.

Unlocking Human Potential: Peptides, Hormones & the Science of Longevity

Speakers: Gordon Crozier, DO

Explore the critical interplay between peptide therapies and hormonal balance in the context of aging. This session will highlight key clinical strategies for optimizing vitality, cognition, and cellular function, using a systems-based approach to longevity medicine.

Key Takeaways:

- Understanding age-related hormonal decline and peptide-based interventions
- Synergistic effects of bioidentical hormones and peptides (e.g., growth hormone secretagogues, thymosins)
- Personalized protocols for vitality, immune support, and healthy aging
- Eastern adaptogens and Western hormone optimization—where they meet

— 09:45-10:30 - Coffee Break & Networking —

10:30 - 12:00

ID SESSION: 8216

Beyond the Scale: Metabolic Reprogramming with Peptides for Weight Optimization

Speakers: Marisol Duque, MD

Weight loss isn't just about calories—it's about chemistry. This session delves into the clinical use of peptides to support metabolic health, fat loss, and body recomposition, integrating hormonal signals, gut-brain axis function, and inflammatory modulation.

Key Takeaways:

- Mechanisms and clinical utility of peptides like semaglutide, CJC-1295, AOD-9604, MOTS-c
- Case-based strategies for managing insulin resistance and visceral adiposity
- Addressing weight regain and metabolic plateaus with peptide cycling
- Combining diet, movement, and Eastern philosophy for sustainable weight outcomes

— 12:00-14:00 - Lunch Break & Networking —

14:00 - 15:45

ID SESSION: 8223

Inside-Out Longevity: The Microbiome, Brain-Skin Axis & Immune Resilience

Speakers: Gordon Crozier, DO

Dive into the interconnected world of the human biome—from the gut to the skin to the brain—and uncover how it influences inflammation, skin aging, mental clarity, and immune robustness. Special focus on SIBO, skin dysbiosis, and neuroinflammation.

Key Takeaways:

- Mapping the gut-skin-brain-immune axis: latest insights and clinical markers
- Peptide therapies (BPC-157, thymosin alpha-1) for gut healing and neuroimmune support
- Integrating Ayurvedic and TCM approaches to microbiome harmony
- Addressing SIBO and dysbiosis in longevity-focused patients

The Future of Rejuvenation: Microchannel Delivery & Peptide-Infused Skin Restoration

Speakers: Marisol Duque, MD

This aesthetics-forward session explores the use of microchanneling devices to deliver targeted peptides directly into the dermis for collagen induction, pigment modulation, and cellular renewal—enhancing both appearance and biological age.

Key Takeaways:

- Microchannel delivery techniques: safety, depth, and formulation considerations
- Peptides for skin repair: GHK-Cu, PTD-DBM, Matrixyl, and more
- Clinical protocols for skin laxity, melasma, and scar remodeling
- Combining microneedling, exosomes, and East-West skin philosophy

Rethinking Hair Loss: Innovation & Integrative Strategies

Moderators: Artur DIAZ-CARANDELL, Ratchathorn PANCHAPRATEEP

Hair loss is a multifactorial condition demanding a comprehensive treatment approach. This session delves into the newest innovations- from regenerative medicine to device-based therapies - integrated with holistic patient care strategies. Discover how to combine modalities effectively and tailor treatments to individual patient profiles for improved hair density, quality, and scalp health.

• Surgical treatments of periorificial vitiligo and canities

Yu-Pin CHENG

• Organic product for hair growth promoter

Ratapon TUANGTHONG

• Hair transplant on non-AGA patients

Ratchathorn PANCHAPRATEEP

• Combination of Erbium YAG laser and Platelet-Rich Plasma (PRP) for the treatment of hair disorders: A comprehensive approach to hair regeneration and restoration

Energy in Action: Practical Applications of Aesthetic Technologies

Moderators: Shiou-Han WANG, Prapawan CHAWVAVANICH, Shumaila Qasim KHAN

This session explores the practical implementation of advanced aesthetic technologies, emphasizing energy-based devices that are reshaping treatment possibilities. Discover evidence-based protocols and expert strategies for combining technologies to customize care for diverse patient needs. From skin rejuvenation to body sculpting, learn how to enhance safety, effectiveness, and patient satisfaction through thoughtful integration of these innovations. Expert case reviews and clinical insights will provide guidance on overcoming challenges and achieving reliable, impressive outcomes in everyday practice.

 Optimizing skin tightening: Combination biorevitalizer priming + monopolar RF Atinuch DUANGKAEW

What's New, What's Next in Regenerative Aesthetics

Moderators: Mariam TSIVTSIVADZE, Vanravi VACHATIMANONT

Regenerative aesthetics is reshaping the way we approach skin and tissue rejuvenation - moving from correction to restoration. This session explores the frontiers of biostimulatory techniques, autologous treatments, and bioengineered solutions. Experts will share updates on exosomes, PRP/PRF, peptides, and next-generation scaffolds, alongside clinical pearls on how to integrate these innovations into daily practice. Whether you're already offering regenerative options or looking to enter the field, this session will guide you through what's making an impact now - and what's on the horizon.

 \bullet Regeneration from decline to renewal: The science behind what damages our cells & how we can rebuild

Mariam TSIVTSIVADZE

• The collagen miracle and why it's not enough for youthful rejuvenation

Xanya SOFRA

• Regenerative medicine & the future of aging: Can exosomes slow the clock?

Anoob PAKKAR-HULL

• Decoding PRP protocols: Global inconsistencies and their Clinical impact

Claudia McGLOIN Noura LEBBAR

• Combination of non-crosslinked hyaluronic acid and platelet-rich plasma (PRP): A rational approach to facial rejuvenation and hair loss treatment

Ee Cheong CHUA

• Full-thickness acne scar remodeling with TCA, Polynucleotides, and a PDLLA–HA hybrid: A single-session protocol

• Next-Gen Aesthetics: Combining thread and regenerative therapies for dynamic facial areas

The Invisible Engine: How Experience-Driven Marketing Fuels Aesthetic Practice Growth

Moderators: Vanessa BIRD, Heidi A. WALDORF, Nataya VORAVUTINON

The most powerful form of marketing in aesthetic medicine isn't flashy or loud - it's subtle, consistent, and deeply human. It's the way your front desk answers the phone. The trust a patient feels in consultation. The quiet confidence of a doctor who educates instead of sells. These invisible forces shape perception, loyalty, and long-term growth far more than any ad campaign.

This session dives into five interconnected topics that reframe marketing as something you do every day, not just something you outsource or automate. With real-world insights from experienced practitioners and clinic owners, you'll learn how to strengthen every stage of the patient journey - from first click to long-term retention.

If you're ready to stop chasing quick wins and start building a brand that lasts, this session is your blueprint for experience-driven growth. Perfect for clinicians, managers, and anyone shaping the patient experience - from first impression to lifelong loyalty.

VIDEO DEMO

The AART™ of Sculptra®: Crafting the Aesthetic Lives with 1-Year Results

Moderator:

Dr Wachira KUNATHATHORN, Thailand

Speakers:

Dr. Stephanie LAM, Hong Kong

Dr. Puttipong POOMSUWAN, Thailand

Dr. Richard RASSAMEECHOTE, Thailand

ROOM 4

10:30-12:30

PHARMA RESEARCH

Advanced Clinical Insights with REJURAN® and DOT-PN Technology

- An in-depth understanding of DOT-PN technology and its regenerative properties
- Clinical efficacy supported by real-world data and global case studies
- Country-specific treatment trends and best practices

14:00-15:00

BR PHARM - HP VITARAN

Beyond Hydration: The Regenerative and Barrier-Enhancing Power of Polynucleotides

Polynucleotides (PNs), purified DNA fragments derived from trout, mark a breakthrough in regenerative aesthetics by enhancing the skin barrier beyond traditional hydration. This presentation explores their molecular mechanisms and clinical applications in aesthetic medicine.

Dr. Young Jin PARK, South Korea

15:00-15:30

ACCLARO MEDICAL - ULTRACLEAR® LASER

Moderator: Dr. Wareeporn DISPHANURAT, Thailand

- 2910nm cold fiber laser redefining medical aesthetics Dr. Glynis ABLON, USA
- Practical adoption of UltraClear for Asian skin Dr. Peter PENG, Taiwan

15:30-16:00

HYALURE AESTHETICS

First Cross-Linked CMC Dermal Filler: Safe technique and Rhinofiller

 Pioneering the first cross-linked carboxymethyl cellulose dermal filler: Safe techniques and new horizons in nonsurgical rhinofiller

Dr. Nourra LEBBAR, Italy

16:00-17:00

JINBO BIO-PHARMA

History of the World's First Certified Injectable Recombinant Type III Humanized Collagen

Jinbo Bio Pharma's Humanized Collagen, approved in 2021, offers a safe, scalable alternative to animal collagen. This workshop highlights its innovation, clinical validation, and global impact.

David ZHOU, China

10.00-10.30

JDBIO

Vegan Collagen Innovation

 Vegan Collagen Innovation: Tremella-Derived Complex for Next-Generation Skin Hydration and Elasticity

Dr. Treesurang LIMPAIBOON, Thailand

10:30-11:30

AESTEC PHARMA

Rejuvenation Reinvented with the Original PDLLA: Mastering Technique, Validating Results with AestheFill

- A novel gradient-density approach utilizing threelayer PDLLA injection for early volume retention and short-term rejuvenation: A 3-case pilot study Dr Chatchawan SRICHAYANURAK. Thailand
- Naturally lifted, clinically proven: The AestheFill Si-PMK experience
 Prof. Rungsima WANITPHAKDEEDECHA, Thailand

11:30-12:30

AESTEMA X JUVETEK

Biostimulators in Harmony: A New Era of Innovative Approaches

This symposium marks a new era of biostimulation in aesthetic medicine, uniting innovation and clinical expertise. Featuring liquid biostimulators (PDLLA + HA) and volumetric PDO threads, it presents advanced techniques and evidence-based protocols for natural, long-lasting facial and neck rejuvenation.

14:00-15:00

TSK LABORATORY

The Art of Safe Aesthetic Injection with TSK: Elevating Aesthetic Excellence through Precision, Safety, and Comfort in Injection Technology

- Injection using cannula Assistant Prof. Thanya TECHAPICHETVANICH, Thailand
- Injection using needle
 Dr. Ya-Nin NOKDHES, Thailand

15:00-16:00

EUFOTON LIVE DEMO DI

EndoliftX® technique for facial sculpting

This workshop features a live demonstration and expert insights on indications, patient selection, and post-treatment care, highlighting its precision, safety, and effectiveness in redefining contours, improving skin laxity, and stimulating collagen.

Dr. Nicha KEOPRASOM, Thailand

16:00-17:00

KBH CARE

Polycarprolactone (PCL) Biostimulator : A Novel Liquid-Type PCL for Enhanced Skin Rejuvenation

This workshop will highlight the innovations of BELLUXI and Croquis.

- The innovation of particle Free Polycaprolactone filler: A new era of safe and effective skin rejuvenation
 Dr Patharaporn JUYYIM, Thailand
- Dr Patharaporn JUYYIM, Thailand Dr Tanonnatt KANNAOPPHARITH, Thailand Dr Apichaya THANYAVUTHI, Thailand
- Aesthetic Lifting The Sophisticated Solution for Safe and Long-Lasting Rejuvenation
 Dr Auntika THIPPHARAK, Thailand

12:00-13:00

Luncheon Symposium

Allergan Aesthetics LIVE DEMO

One Face, Many Layers: A Strategic Approach to Injectable Synergy with AA Signature

Moderator

Dr. Jinda ROJANAMATIN, Thailand

Speakers

Dr. Sylvia RAMIREZ, Singapore

Dr. Chaloemchai SRIAKKRAPONG, Thailand

ROOM 4

09:00-10:00

MNB THAI

- Clinical applications of monophasic, biphasic, and hybrid HA Fillers: The Elravie premier experience Dr Pattharapong SANEHA, Thailand
- Olidia 365 clinical forum: Patented PLLA, precision techniques, and case sharing
 Dr Chatpong BOONNOM, Thailand
- Cooltera Program: A new standard in non-Invasive lifting and skin tightening with Coolfase and Liftera-2 Dr Jaruta OONJITTICHAI, Thailand

10:30-11:30

PHARMA RESEARCH

Advanced Clinical Insights with REJURAN® and DOT-PN Technology

- An in-depth understanding of DOT-PN technology and its regenerative properties
- Clinical efficacy supported by real-world data and global case studies
- Country-specific treatment trends and best practices

11:30-12:30

KORU PHARMA

Polynucleotides: Rejuvenation, Complication Treatment, Tailored Regeneration - Clinical cases with Crystal Healer PN

This workshop showcases real cases with Crystal Healer PN, highlighting tailored treatments that achieve natural, regenerative results. Learn advanced techniques, combination approaches, and how PN technology drives true skin renewal and personalization in aesthetics.

Dr. Sophie LAMPRECHT, Spain Dr. Walter LAUREL, Philippines

THE CATALYST ROOM

15:30-16:30

SUISSELLE

Advancing Skin Rejuvenation Through CHAC Technology: Protocols and Clinical Insights into the Efficacy of Cellbooster® Lift

Dr Nenad STANKOVIC, Serbia

• Combining fillers, biostimulators, and toxin for optimal injectable outcomes in the lower face

14:00-15:00

FHL

Beyond Surface Beauty: Reshaping Facial Architecture with Deep-Plane HA Techniques

This workshop explores deep-plane HA filler techniques for precise contouring and natural results. It features FHL's HYLO® Hybrid Technology, DIAMOLD process, and Rejeunesse products. Participants will learn safe, anatomy-based, and personalized approaches.

Dr. Hebert LAMBERT, Brazil

15:00-16:00

ULTRA V

PolyDioxanone(PDO) Biostimulator: Safe & Effective Collagen Stimulation

- PDO microsphere biostimulator in combination therapy: The synergistic approach to facial rejuvenation (full face /neck /hand)
 - Dr. Natthawan KRUTHAMAS, Thailand
- PDO microsphere: SEE code with systematic TIZ approach for lifting and natural restoration
 Dr. Sarawuth SUWAN, Thailand
- PolyDioxanone(PDO) Biostimulator: Safe & Effective Collagen Stimulation

Dr. Han Jin KWON, South Korea

16:00-17:00

HEALUX

High-end Innovative Exclusive Seminar using iThread & Healfusion

- iThread Matrix contour for the nose and Boost your skin's glow: New beauty device, Healfusion Dr Taehwan AHN, South Korea
- Synergistic Multi-Vector Techniques for Stable Midfacial Suspension

Dr Young Jin PARK, South Korea

09:30-10:00

JDBIO

Hybrid HA + PN Complex: Redefining Skin Remodeling with Richesse Hi-Lo Pro

This workshop examines the anatomical basis and clinical use of Richesse Hi-Lo Pro with polynucleotides (PN), highlighting its bio-regenerative mechanism for natural, long-lasting results and safe, effective rejuvenation with HA, PN, and collagen treatments. **Dr. Benrita JITAREE, Thailand**

10:30-11:30

IDENEL PROFESSIONAL

Redefining Skin Quality: A Safe and Non-Injectable Prejuvenation Solution for Tone, Texture, and Elasticity Improvement with Glassifier

- Minimally invasive spicule-based delivery for periorbital wrinkle improvement: Effects of peptide and glutathione-based booster
 Dr. Young Jin PARK, South Korea
- Idenel Innovative topical Collagen booster : Peptaxel™

Dr. Noura LEBBAR, Italy

 Idenel - Korean Glass Skin Trends: Easy and Safe Ways to Get Skin Glow
 Dr Wonkyu HONG, South Korea

11:30-12:30

BR PHARM - HP VITARAN

Personalized PN Applications: Improving Outcomes and Managing Side Effects

This workshop explores personalized applications of polynucleotides (PN) in aesthetic and regenerative medicine. Through case reviews, participants will learn to optimize results, manage side effects, and integrate PN with other treatments for safe, effective, evidence-based outcomes.

Dr. Kyung Tae BAE, South Korea

14:00-15:00

DERMAPENWORLD

Skin-Needling with Dermapen 4

 Pinpoint precision - Skin-needling depth, mechanism & chemical value re-deciphered & redefined
 Dr. Andrew CHRISTIE-SCHWARZ, France 15:00-16:00

DOUM CORPORATION

Effectiveness of Plant origin and Molecular Weight Controlled Chitosan (ARCHE) on the Hair loss and Hair transplantation

 ARCHE Chitosan, the first mushroom-derived chitosan, is FDA-approved and promotes hair follicle growth. Clinical trials show improved hair density without major side effects.

Dr Byung Cheol PARK, South Korea

 Chitosan, a new skin booster: How to use and deliver Dr Kyu-Ho YI, South Korea

16:00-17:00

CIRCADIA

FULL-FACE INJECTABLES

INTERACTIVE DEMONSTRATIONS AND EXPERT TECHNIQUES

08:30 - 17:30

FULL DAY

7.5 CME CREDITS

COURSE DESCRIPTION

NATURALLY YOU: DIVERSITY-INCLUSIVE AESTHETIC TECHNIQUES

This course takes a human-centered approach to full-face injectables, focusing on gentle techniques that respect each patient's individuality. Through close observation of expert injectors in action, participants will gain practical insight into achieving soft, natural-looking results guided by anatomical precision, emotional intelligence, and cultural sensitivity. Faculty will demonstrate how to adapt techniques to diverse aesthetic ideals, ensuring artistry that enhances rather than alters personal identity. By blending empathy with technical excellence, this course empowers practitioners to deliver outcomes that are both authentic and meaningful for their patients.

COURSE OBJECTIVE

1. COMPREHENSIVE LEARNING EXPERIENCE

- Gain in-depth knowledge through expert-led lectures on the latest techniques in full face rejuvenation, patient assessment, and safety protocols.
- Learn from multiple experts as they demonstrate advanced injection techniques across different facial zones.

2. INTERACTIVE AND PRACTICAL INSIGHTS

- Engage in interactive discussions during live demonstrations, allowing for a deep dive into the nuances of each technique.
- Benefit from personalized feedback and practical tips from experts, enhancing your ability to deliver exceptional results in your practice.

3. UNIQUE CLOSE OBSERVATION OPPORTUNITY

- Closely observe full face rejuvenation treatments performed by various experts in small groups.
- Witness different techniques and approaches for each facial zone, with ample opportunity to ask questions and discuss details in real-time.

VENUE

Rajavithi Hospital, Building C, 12th floor

2 Phaya Thai Rd, Thung Phaya Thai, Ratchathewi, Bangkok **Public transport:** BTS - Victory Monument Station

Rajavithi Hospital, a premier government-run healthcare facility situated in the heart of Bangkok, Thailand is known for its comprehensive medical services and advanced healthcare technologies. It provides an ideal setting for this educational program.

COURSE PROGRAM ROOM 1

07:30 -08:30

Registration in front of the main lecture room 12th floor

08:30 - 09:30

Foundations in Full Face Rejuvenation

- Clinically relevant facial anatomy for injectables Joan Vandeputte
- Comprehensive patient assessment and customized treatment planning

Jack Kolenda

 Is more better? Benefits of HA soft tissue filler on the psychological and social-related quality of life dimensions

Alain Michon

• Strategic product selection essentials: Injectable fillers for full-face rejuvenation

Ekaterina Gutop

09:30 -10:30

Injection Technique Deep Dive I: Upper Face, Midface & Tear Trough with Video Tutorials

 Temple injections: Techniques for filling and softening sharp contours

Thanya Techapichetvanich

- Forehead shaping: Safe and effective approaches Joan Vandeputte
- Periocular region: Addressing complex anatomy challenges

Jesper Thulesen

• Elevating the midface: Strategies for tear trough and malar enhancement

Alain Michon

— 10:30 - 10:50 - Coffee Break —

10:50 -11:50

Injection Technique Deep Dive II: Harmony of Nose, Lips, and Lower Face

 Facial balance: From nose to chin Arash Jalali • Lower face enhancement: My approach to contouring and volume

Ekaterina Gutop

• Lips and perioral area: Precision and natural results Jack Kolenda

11:50 -12:10

Complications Recognition and Management

- Complications in injectables: Setting the scene **Jesper Thulesen**
- Case 1: Suspected veinous occlusion from filler injection in the forehead
 Jinda Rojanamatin
- Case 2: Complication and how I deal with it Panwadee Thongjaroensirikul
- Case 3: Hyaluronidase in a 10-day old lip vascular occlusion

Alain Michon

12:10-13:00

Biostimulators, Combination Techniques & Video Demonstration

• Biostimulators and their role in rejuvenation (with video demonstration)

Ekaterina Gutop

• Reshaping and biostimulating separately or all in one? (with video demonstration)

Tanongkiet Tienthavorn

Video demos highlighting safe and effective applications

Alain Michon

— 13:00 - 14:00 - Lunch Break —

14:00 - 14:30

Participants will be divided into 10 small groups and assigned to designated treatment rooms.

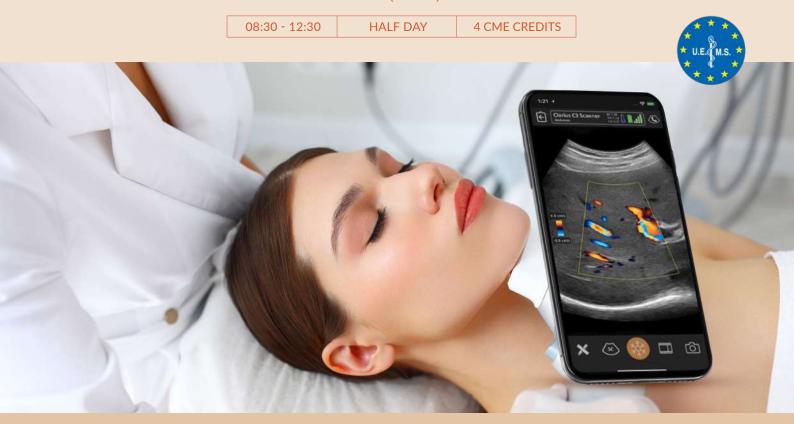

14:30 - 17:30

Live demonstrations & Interactive Discussion

Experience an afternoon of immersive learning and collaboration, where participants delve into the intricacies of full-face rejuvenation with injectables through close observation and interactive discussions with leading practitioners.

FACIAL ULTRASOUND - AESTHETIC MEDICINE

FACIAL HIGH-RESOLUTION ULTRASOUND (HRUS) IN AESTHETIC MEDICINE HANDS-ON

SCIENTIFIC DIRECTORS

Prof Dr Rungsima
Wanitphakdeedecha
Dermatologist
Thailand

Dr Panwadee
THONGJAROENSIRIKUL
Dermatologist

INTERNATIONAL FACULTY

BETZER Hagai

Aesthetic Physician, Israel

RAVERA Karina

Aesthetic Physician/Radiologist, Argentina

THONGJAROENSIRIKUL Panwadee

Dermatologist, Thailand

WANITPHAKDEEDECHA Rungsima

Dermatologist, Thailand

COURSE DESCRIPTION

High-Resolution Ultrasound (HRUS) is emerging as an indispensable tool in aesthetic medicine, enabling precise anatomical visualization, safe injection planning, and improved management of complications. This intensive 4-hour course offers both foundational knowledge and real-time hands-on experience with state-of-the-art facial ultrasound techniques. Designed for aesthetic practitioners at all levels, the course blends scientific rigor with clinical practicality, guided by internationally renowned experts.

LEARNING OBJECTIVES

Participants will gain the ability to:

- Understand the physics and core principles of facial ultrasound
- Perform HRUS scanning techniques for aesthetic evaluation
- Identify dermal fillers and biostimulators by echogenic profile
- Apply ultrasound-guided techniques for injections and complication management
- Conduct facial vascular mapping using Doppler imaging
- Integrate tele-ultrasound into aesthetic practice for remote consultations

COURSE PROGRAM

LIMITED TO 40 ATTENDEES

ROOM 2

08:30-10:30

Theoretical Module

Moderator: Dr. Karina Ravera (Argentina)

08:30-10:00

Presentation by Dr. Karina Ravera

1. Fundamentals of Ultrasound in Aesthetic **Procedures**

- Ultrasound physics: frequency, penetration, resolution, piezoelectric effect
- Imaging modes: B-Mode, Doppler, Tissue Harmonic Imaging (THI)
- Types of transducers for facial scanning
- Key ultrasound terminology: echogenicity, echotexture, artifacts

2. HRUS Scanning Techniques for the Face

- Standard views for cervicofacial assessment
- Terminology applied to soft tissue and filler visualization
- Techniques for artifact-free scanning

3. Ultrasound-Guided Injection Techniques

- Needle guidance: in-plane vs. out-of-plane
- Practical application in aesthetic procedures

4. Visualizing Fillers and Biostimulators

- Classification by ultrasound characteristics
- Echogenic signatures of different materials

5. Facial Vascular Mapping with Doppler

- Principles of Doppler physics
- Color and power Doppler applications
- Mapping high-risk zones before injection
- Enhancing vascular visualization using pharmacologic agents
- Emergency applications of Doppler

10.00 - 10.30

Presentation by Dr. Hagai Betzer

6. Ultrasound in Managing Complications

- Real-time identification of injected materials and vascular structures
- Evaluation of adverse events
- Monitoring and guiding therapeutic interventions

10:30-12:30

Practical Hands-On

Lead Faculty:

Karina Ravera

Aesthetic Physician/Radiologist -Argentina

Rungsima Wanitphakdeedecha

Dermatologist - Thailand

Panwadee Thongjaroensirikul

Dermatologist, Thailand

Hagai Betzer

Aesthetic Physician - Israel

Under live demonstration by Dr. Karina Ravera, attendees will rotate through practical stations, with ultrasound images projected for group learning. Each station is supported by expert tutors and designed to simulate clinical conditions using realistic in-vitro models.

Hands-On Stations:

- 1. Anatomical Scanning by Facial Thirds: Recognition of key soft tissue landmarks
 - Lead: Surachet Sirisuthivoranunt, Nayanunt Prinyaroj
- 2. Facial Vascular Mapping: Detection of major vessels and danger zones using Doppler

Lead: Panwadee Thongjaroensirikul

3. Filler Identification in In-Vitro Models: Interpretation of simulated soft tissue filler deposits

Lead: Hagai Betzer

- 4. Ultrasound-Guided Injection Practice: Needle/ cannula guidance for hyaluronidase and other agents Lead: Karina Ravera
- 5. Tele-Ultrasound Simulation: Live practice of remote scanning for emergency consultation Lead: Juthapa Pongklaokam, Pasinee Deeudomwongsa

THE THREAD WORKSHOP

COURSE DESCRIPTION

This workshop blends expert-led lectures with live demonstration stations to explore advanced thread lifting techniques. Participants will learn about thread types, facial anatomy, and personalized treatment strategies. Observation stations provide practical insights into thread placement and system comparison. The session concludes with key guidance on preventing and managing complications safely.

LEARNING OBJECTIVES

Participants will gain the ability to:

- Understand different types of threads and their indications in aesthetic medicine
- Assess facial anatomy and plan thread vectors tailored to patient needs
- Demonstrate proper thread insertion techniques across multiple brands
- Compare handling characteristics and treatment approaches of different thread systems
- Identify common complications and apply strategies for prevention and management

COURSE PROGRAM

LIMITED TO 80 ATTENDEES
EDUCATION HOURS = 4 HOURS

ROOM 3

13:00-13:30

Registration

13:30-15:30

From Foundational Anatomy to Techniques Across Facial Zones

Prof Dr Thanya Techapichetvanich

- Essential anatomy and principal of thread lifting Thanya Techapichetvanich
- Thread-based techniques and tips for eyebrow and foxy eye elevation

Vanravi Vachatimanont

• Contemporary thread approaches for non-surgical rhinoplasty

Thanya Techapichetvanich

• From reverse to refined: Modified thread lifting for Asian facial harmony

Yanin Nokdhes

Volumization threads: Indications, strategics and best practices

Pitchaya Maneeprasopchoke

• Submental contouring: Precision techniques for cervicomental definition

Mart Maiprasert

- A comprehensive approach to full-face thread techniques: Global perspective (Caucasian trend)
 Nenad Stankovic
- A comprehensive approach to full-face thread techniques: Global perspective (Asian trend)
 Cyril Agan

15.30- 17:30

Live Demonstrations

Nattaporn Sampattavanich

- CASE 1: Brow and foxy lift Rosalyn Kupwiwat
- CASE 2: Nose contouring Thanya Techapichetvanich
- CASE 3: Combined reverse and conventional lifting Yanin Nokdhes
- CASE 4: Lip reshaping with volumization thread **Pitchaya Maneeprasopchoke**
- CASE 5: Submental contouring
 Mart Maiprasert
